

TEXBOR, S.A. : A FACTORY OF TECHNICAL TEXTILES IN ANDORRA

From our origins of family company (at present already more than 100 years ago), in TEXBOR, S.A. we have been characterized always by a great will of innovation and for a great opening to the introduction of new technologies and work methods, that have allowed us nowadays to be placed and consolidated among the most avant-garde companies in our sector.

TEXBOR, S.A. maintains at present their origins and it continues being a family company presided over by Mr. Josep M^a Masó, who is also the General Manager of the company. The enterprise is also managed with the direct shareholding of two sons of Mr. Masó and a technical team highly qualified and with qualifications of superior engineering.

TEXBOR, S.A. is composed of five different departments, which are the following ones:

EXIT-SLING Lifting systems and Load Restraint Assemblies

EXIT-DECOR Ribbons for the dressmaking, decoration, design and fashion

PORITEX Localized irrigation by exudation

SMART-SLING Slings for the transport of external loads with helicopters

EXIT-INNOVA Technical applications for ribbons

TEXBOR, S.A. exports products besides 20 countries, being Europe our main market.

INNOVADORS Prize 2006 of the Bureau for Business Innovation (OIE) of the Government of Andorra.

For TEXBOR, S.A., to have been the winners of the Innovadors Prize 2006 for the project "SMART-SLING" has supposed the creation for the company of two new departments (SMART-SLING and EXIT-INNOVA) that they have added to the three departments existing previously (EXIT-SLING; EXIT-DECOR and PORITEX), the diversification of the entrepreneurial and economical activity of the company, an increase of the volume of business, the reaffirmation of the R+D+i+"I"(we always add "I" of illusion to it), the internationalization of the company, the creation of new jobs...

Mr. Josep M^a Masó i Marcet
President of TEXBOR, S.A.
